

# OOPS Activity Planning Worksheet

Revised 02/15/09

<b>Title:</b> Willamette River Clean UP		<b>Type of Activity:</b> Trip		<b>Date(s):</b> Sat. 10/03/09	
<p><b>Narrative description:</b> This activity is in conjunction with the Willamette Riverkeeper's 'First Annual Great Willamette Clean Up'. Registration is required with them as well.</p> <p>The OOPS group will be working the industrial section of the Willamette River from Cathedral Park in St. Johns to Swan Island. We'll begin by crossing the river then going upriver along the west bank for three miles, then cross back over to the east bank and work our way back down river and return to the put-in below the St. John's Bridge. Crossings are ~0.4 miles.</p> <p>If there is sufficient participation (six or more), a second leader, and a second first aid person, we MAY split into two groups with the second group crossing the river and going down stream along the west bank to the confluence of Multnomah Channel, cross back over the Willamette to the east bank, and proceed back upstream to the put-in. This also depends upon who the participants are, their paddling skills, and weather conditions on the day of the clean-up.</p> <p>The Trip Plan will be revised when participation numbers and weather forecasts are more reliable. dd</p>
